Theorists are examined within their historical and sociological framework and the text provides an analysis of developments in sociological thought and research. The text is divided into four main sections: Part One, Origins and Concepts, surveys the history of the discipline of sociology and examines key themes which have influenced sociological theorising and investigation, in particular, social control, culture and socialisation. Parts Two and Four, Sociological Theories and Sociological Research, include a number of readings from the founding theorists and investigators, including Auguste Comte, Emile Durkheim, Karl Marx, Max Weber and Charles Booth, and also include more recent theoretical writing and research approaches. 381 pp. Englisch.
