CHAPTER X SOCIAL HEREDITY S soon as we come to grasp the application of the principle of evolution described in the previous chapters, we can hardly fail to perceive that the significance of its bearing on the future of civilization is quite out of the ordinary. The peoples who apply to practical affairs the lessons which are involved will inevitably become the leaders and organizers of the world. The future science of civilization may be summed up in a sentence. It will be the science of Power. It is waste of time to spend effort discussing other principles of society. There is only one type towards which the universal process of civilization moves--the type of society in which Power is realized to the highest degree. It is therefore of the first importance to grasp firmly the essential facts that distinguish the science of...
