The bag form shown is most convenient for D-shape or standing waste bowls which present the outlet comparatively near the wall. The regular S of this type suits bowls with center outlet, and will reach a wider range of variation in roughing-in. Fig. 203 shows a common lead drum or pot trap, most convenient to the plumber. It is furnished without openings, and the plumber makes bends, and wipes-in his inlet and outlet at points in the circumference most convenient to reach the fixture opening. A is the screw-top clean-out; and B, the wrench-face for turning it. The trap is furnished, when desired, with nickel-plated brass flanged cover, as shown at C, to screw on at the floorlevel. F is ordinarily the...
